Loading Data from External Files into Hive Tables

1. Create a file product.csv.

```
1,GALAXY S20,SAMSUNG,SMART PHONE,55000
2,IPHONE 11,APPLE,SMART PHONE,93000
3,NOTE 8 PRO,REDMI,SMART PHONE,13999
4,IDEA PAD 330S,LENOVO,LAPTOP,53000
5,ALIENWARE,DELL,LAPTOP,65000
6,SAMSUNG NOTE 10,SAMSUNG,TABLET,23000
```

, and move it into hdfs.

2. Create hive table.

```
create table product
(
        id int,
        name string,
        brand string,
        category string,
        price double
)
row format delimited
fields terminated by ',';
```

3. To Load data from external files.

```
load data inpath '/data/product.csv' overwrite into table product
```
